NEWS AND COMMENT.

In the house Saturday Mr. Boring spoke in advocacy of an amendment he will offer to the rivers and harbors bill, appropriating \$100,000 for the upper Cumberland. He criticized the appropriation for Licking river and said it seemed that Chairman Barton and Representative Berry, of the committee, had sacrificed their status for the benefit of their districts.

The joint postal committee of the house and senate held its final session Saturday and will present its report to congress Monday. It will report that the cost of railway mail transportation is not excessive; that the extension of the pneumatic tube service is inadvisable, and that expenditure for special railroad facilities is not justified.

FIVE DAYS

Snowed in—Passengers to the Number of 5,000 Faced Death in Russia.

MANY FROZEN TO DEATH

Blizzard Raged For Hours and Troops Were Sent Out to Battle for Rescue.

TERRORS BY THREATENED STARVATION

London, Jan. 14.—The Odessa correspondent of the Daily Mail sends a heartrending story of the sufferings of railway passengers snowbound while on the way to Odessa. The blizzard, he says, raged continuously for more than 100 hours over the whole of Southern Russia. He describes the gradual arrival of trains at Raskylnia, with hundreds of passengers, from the north, who had entrained six days before.

"They had been snowed in for five days," he continues, "and fighting among themselves for the scanty food supplies provided at the railway buffets. Women and children were weeping with hunger, while gangs of men battled with snowdrifts which were thirty-five feet deep in some places, and that, too, without snow-plows, although these would have been useless even if they could have been found. It was found that many of the passengers had their arms or legs frozen."

"Eighteen thousand troops are now engaged in the work of clearing the line. The storm has abated and it is announced that the besieged trains will get through to Odessa this morning. No mails have been received here for six days. Corpses have been kept unburied for eight days, as it has been impossible to inter them. The conduct of the railway authorities is loudly condemned."

London, Jan. 14.—The Odessa correspondent of the Daily News wires that about twenty people were frozen to death in the blizzard.

WISE OR OTHERWISE.

The biggest man on earth began life in a small way. A man is made either great or small by his own will. The fool's weakness may be the wise man's strength.

Tears are the brine in which misery is sometimes cured. Lots of people complain from a mere habit of complaining. The man who is driven to desperation usually assists in the driving. Children and fools are very apt to seize upon unanswerable arguments. The most bitter medicine is often the best. It is the same with experience.

Kaiser's Park Closed to Public. The beautiful forest known as the Wild Park, the property of the Kaiser, at Potsdam, will probably be closed to the public. For this the rowdy Berliners have themselves to thank. Against its regulations the woods are made hideous with paper in which provisions have been wrapped, and the deer are continually being frightened by the catcalls of the holiday crowds.

STATE CONVENTION.

TWO HUNDRED DELEGATES EXPECTED AT THE Y. M. C. A. MEETING.

Two hundred delegates are expected at the State convention of the Y. M. C. A., to be held at Louisville February 21-24, inclusive. The business men's reception and entertainment will be held at Warren Memorial Church February 22. The button adopted for the delegates consists of the emblem of the association, surrounded by a blue and white ribbon.

A general mass meeting will be held on the Sunday of the convention week in some central hall. The singing during the sessions will be led by a male chorus of forty voices.

CIRCUIT COURT

THE JURY EMpaneled TODAY—RICHEY CASE ON TRIAL.

Mrs. Kate Parker Gets a Divorce—Other News of Judge Hudson's Court.

This morning the petit jury was impaneled in the circuit court as follows: J. P. Childers, W. H. Price, O. P. Leigh, D. L. Van Culin, E. C. Rudolph, F. L. Brown, Steve Menard, H. W. Hand, Josiah Price, W. B. Flournoy, W. B. Weeks, W. A. Rudolph, W. J. White, J. B. Overstreet, Geo. Umbaugh, S. C. Vanghan, M. V. Cherry, Ed. Boswell, J. T. Bishop, J. D. Richey, D. D. Murphy, J. M. Elliott, Lee Potter, B. B. Davis.

The case of Mrs. Richey against the Sun Life Insurance Co. on policy was taken up and is on trial.

Mrs. Katie Parker was granted a divorce from W. F. Parker today and restored to her former name, Mrs. Bonnin. Mr. Parker is father of Jo A. Parker, the well known Populist politician, and now lives in Louisville.

Attorneys Walter R. Howard and Henry Calerick were sworn in to practice at this bar.

HERE'S COMMON SENSE.

Lexington, Ky., Jan. 14.—The board of health here has adopted resolutions that in future regular weekly statements of the presence of smallpox in the community shall be published over the signature of the president of the board and that a warrant shall be issued against any physician failing to report a suspicious case. This action grew out of the recent exaggerated rumors of smallpox in the city, caused by attempts to suppress the fact of smallpox in the city in the interest of the holiday trade.

DIDN'T DIE AFTER ALL.

Margaret Wicker, wife of Louis Wicker, of Sandy Bottom, near Mayfield, got mad at her spouse Saturday and drank two ounces of laudanum to prove how mad she was. She then ran out and lay down to die, but some neighbors ran over and soon had her so comically dosed with laudanum that death would have been a blessed relief. She has now recovered.

WANTS TO BE SPEAKER.

Mayfield, Ky., Jan. 14.—Representative Eugene Weatherford, of Mayfield, who has been renominated in Graves county, will be the only West Kentucky candidate for speaker of the next house, if he is elected. He will begin his canvass as soon as all the other Democratic candidates are selected.

Other Names for Recall.

From the army recruiting stations in Chicago there has been gathered a formidable addition to the slang of the day. Strictly speaking, a "shave-tail" is a "griffin" or "coyote" or "rooster," but frequently is called a "plebiter," and perhaps is known even more widely as a "ring-tailed snorter." All these are terms of reproach addressed to the "rookie," or military recruit, in the United States.

MEANS MUCH

Importance of the Decisions in the Cases Now Before the Supreme Court.

WHAT MIGHT HAPPEN IF

The Court, By Its Decision, Defeats the Government in Its Position in the Matter.

PHILIPPINES IN DANGER BEING LOST

Washington, Jan. 14.—Decisions against the government by the United States supreme court in the Porto Rico and Philippine cases might mean the establishment of free trade between the Philippines and the United States. This would mean free trade between the Philippines and Spain. They might mean our withdrawal from the Philippines altogether to save the protective tariff policy of the government. They might mean an amendment to the constitution necessary to enable us to dispose of the islands.

INJURIES FATAL.

HENRY THOMAS, COLORED, DIED TODAY AT I. C. HOSPITAL.

He Was Shot in the Stomach One Day Last Week at Ripley, Tenn.—Was a Brakeman.

Henry Thomas, a colored Illinois Central brakeman who was shot in the stomach at Ripley, Tenn., one day last week, died this morning at the Illinois Central hospital. His injuries were pronounced fatal as soon as they were examined.

Thomas seemed to know very little about who shot him. He said once, however, that it was an accident, but others say the negro, whose name could not be learned, had previously threatened him. He was 17 years old and leaves a brother in Cairo. The remains will probably be buried here.

BENTON NOTES.

Benton, Jan. 14.—Mrs. Sarah Parks, aged 75, and a highly respected citizen, died from pneumonia, after an illness of two weeks.

The defendants won the case of W. S. Griffith and J. M. Johnson against N. P. McElrath and others for the T. E. Barnes storehouse. The case was tried in Judge Shewell's court.

AFTERTHOUGHTS.

Better rely on your adversary's generosity than on his incapacity. The man who knows enough not to know too much hardly ever has to ask for aid.

The talk of some people about themselves is an insult to their listeners' acumen. Whether we have been absent a day or a year, we always feel that something of moment must have happened while we were gone.

It is too much to expect a good talker to spoil a good story by sticking too closely to the truth. It would be a great comfort to us to know positively that many of the things we feel we ought to believe are not so.—Indianapolis News.

Thomas Dutch Lord, who died the other day in Boston, was a graduate of Brown university and came one of the oldest Boston families. For many years since he lost his fortune he has made a good living by tracing the pedigrees of others. A woman at the Newberry library here is kept busy doing the same thing.

REELFOOT LAKE.

TWENTY-EIGHT FEET ABOVE THE MISSISSIPPI RIVER.

The engineer in charge of the Reelfoot Lake levee district, says: "According to request, have run a preliminary level line from the Mississippi river at Tiptonville to Reelfoot Lake, and found that on the 10th of November, 1900, the date of the work, the elevation of Reelfoot Lake was 28 feet above the Mississippi river and 14 feet above the top of bank of slough below Tiptonville. It is my opinion that the large body of water in Reelfoot Lake is, in a great measure, responsible for the caving of the bank at Tiptonville, as the country between the lake and the river is resting on a bed of quicksand through which the water of the lake is draining toward the river, and in so doing it will carry off a considerable quantity of the sand and weaken the foundation and cause the caving of the bank. By draining the lake, I believe that the caving of the bank at Tiptonville will, in a great measure, be remedied."

POLICE COURT

HENRY REED HELD ON A MALICIOUS CUTTING CHARGE.

A Negro Woman Fined and Sent to Jail—Other Cases Considered By Judge Sanders Today.

Henry Reed, colored, charged with cutting Alice Duncan, alias Williams, on the head, was tried in Judge Sanders' court today for malicious cutting and held to answer in the sum of \$500. The evidence showed that he knocked her down several times and then cut her. He declined to testify.

Jim Crowley, Tom Clark, W. Berry and David T. Bell were charged with drunkenness and were all fined \$1 and costs. Bell was fined one day last week but judgment was suspended on condition that he leave town and not come back.

A case against Annie Tolbert, for using insulting language, was left open until tomorrow. She is alleged to have used very obscene language in the presence of ladies who were passing near Second and Court.

Polly Reed, Mary McReynolds and Annie Morton, for being drunk and disorderly, were fined \$30 and costs and sent to jail in default of \$100 bond to keep the peace for three months. Judge Sanders said he was going to have them locked up and kept in their cells, and if they were made trustees would at once release them.

Mitch Caldwell pleaded guilty to being in the gang that disturbed worship at the Trimble street church Sunday a week ago and was fined \$20 and costs. Given Greer, who has tried to play innocent all along, pleaded not guilty and the case was left open until that he may get the boy he claims to have given his fire crackers to. If he fails to find him he will be fined \$20 as the others were.

James Hodge, colored, got mad with Mr. Tom Boswell, at J. W. Dicks', on Second street, over a box of sardines, and after walking past the store several times, threw half a brick in and missed Mr. Boswell's head but a few inches. Four or five glass jars were broken. Hodge was caught before he got out of sight of a man who saw him throw, but claimed he didn't do the throwing, and was warranted for false swearing, the case being set for Wednesday. For throwing the rock he was fined \$50 and costs.

A breach of the peace case against Walter Fisher and L. Robertson was continued until tomorrow.

DEEDS.

Thirty-nine acres of land in the county was transferred to J. G. Brandon by Mildred Vaughan, for \$355.70. George Langstaff and others sold their undivided one-half interest in the store buildings on Broadway between Third and Fourth streets, to R. Loeb and Moses Bloom, for the sum of \$10,500. These are the buildings occupied by Mrs. Carrie Girard, J. J. Dorian and D. L. Van Culin, their value being placed at \$21,000, one-half of which was already paid by the purchasers.

Property at Eleventh and Jefferson streets was sold to John L. Webb, M. D. Ward and W. R. Lee, trustees for the Paducah district Methodist church by Mrs. Sarah M. Gardner, for \$3,000. This is the Gardner property purchased for the presiding elder.

TO LEAVE FULTON.

Prof. G. R. Haley will not be an applicant for principal of the South Fulton Normal college the next September term, says the Fulton Leader. He has accepted the presidency of a college at Sedalia, Ky.

PEKIN POINTS

Confirmation of the Signing of the Notes By the Chinese Envoys Received.

LI HUNG A VERY SICK MAN

Powers Insist the Peace Negotiations Must be Concluded in Peking, If at All.

WILL BE NO SETTLEMENT IN EUROPE

Peking, Jan. 14.—The joint note of the powers has finally been signed by the Chinese peace commissioners. Prince Ching signed Friday and Li Hung Chang, who is better, signed it Saturday.

It is understood that the malady from which Li Hung Chang is suffering is Bright's disease. He is a very ill man. Prince Ching has protested to the court against the appointment, said to be contemplated, of Viceroy Chang Chih Tung as a plenipotentiary in the place of Li Hung Chang. He thinks the latter can best settle with the powers.

The proposal to remove the peace adjustment to Europe is received with much disfavor. Most of the envoys have received word from their governments that the negotiations must be conducted in Peking. Japan is particularly strong in its position.

IN GOOD SHAPE.

Washington, Jan. 14.—The army bill is still before the senate, but a vote is expected in a few days. The river appropriation bill is in good position also. After these bills come the appropriation act and the subsidy bill also.

MANY WERE LOST.

Yokohama, Jan. 14.—It is believed that 1,400 fishermen missing several days ago perished in the storm of the 10th off that coast.

A recommendation for a permanent Philippine naval station on Subig Bay has been made by a board appointed to select a site.

FREIGHT TRAINS

COLLIDED AND THE WRECKAGE TOOK FIRE.

Bellefonte, Ill., Jan. 14.—A disastrous wreck occurred at West Bellefonte at 1:30 a. m., Saturday in which two men were killed outright. They are Conductor W. A. Wing, of Sparta, Ill., and brakeman Edward Ring, of DuQuoin. Illinois Central freight 255 was waiting for orders in the yards. In the caboose Conductor Wing, who was returning home to see his sick wife, was asleep, and brakeman Ring was waiting the train's departure.

An extra freight of the same road approached from East St. Louis, unheeded, and suddenly crashed into the waiting train. The caboose was split almost in two. Four other cars were wrecked. Under the debris the two men were found terribly mangled. Engineer Pope and Conductor McQuay of the extra jumped and escaped injury.

While the luckless victims were pinned beneath the cars the wreckage took fire and added to the horror. The two helpless victims were slowly burned to death and no one was able to help them. No cries were heard from either Wing or Ring, but it is thought that they must have suffered horrible agonies by being slowly roasted to death.

The body of Ring was found near the boiler, both legs were nearly burned off below the knee. The body of Conductor Wing was badly burned. Both bodies were mutilated so that recognition was almost impossible, but Ring was identified by a Masonic charm.

OFFICER ORR'S CHARGES.

Officer Tom Orr, as he was on his way down to report for duty today about 5 a. m., heard a terrific disturbance in front of Councilman J. S. Jackson's residence, at Sixth and Adams. He found upon investigation that it was two drunken negro women, Polly Reed and Annie Morton. One had torn the other's dress off and thrown it into the councilman's yard and the officer had to go over and rescue it before he could take his prisoners to the city hall. They were fined \$30 and costs each.

PRESIDENT DOING WELL.

Washington, Jan. 14.—President McKinley was able to take a short drive yesterday. He continues to improve.

The Supreme Court Decides That Neeley Is Subject To Extradition, as

CUBA IS FOREIGN COUNTRY

The Hallam Disbarment Case Is Warming up and There are Flat Contradictions Made

STATE ELECTIONS IN SESSION TODAY

Washington, Jan. 14.—The supreme court has decided the Chas. I. Neeley case. Neeley, it will be recalled, was charged with great frauds in Cuba against the government. The decision says he is subject to extradition and must be surrendered to Cuba for this purpose. The court holds that Cuba is foreign territory, America only having fought to free it from Spanish rule.

Frankfort, Jan. 14.—The Democratic electors of the state are in session today, as are the electors in all states of the union, to cast their votes for president and vice president. There is a hot race on for messenger to take the vote to Washington, this being between R. L. Offutt, of Louisville, and Smith Hays, of Winchester.

Covington, Jan. 14.—The Theodore Hallam disbarment hearing begun before Judge Tarvin today. Harvey Meyers, whom Hallam accuses of using the language accredited to him, filed an answer declaring the statement that he, Meyers, ever reflected upon the courts of Kenton or Campbell county a malicious falsehood. One of the men whom Hallam said told him of Meyer's derogatory statement denied on the stand he had so told Hallam.

Personality of Mr. Smith. Samuel Smith, M. E., whose recent motion in the house of commons with regard to what have been called "un-Smithlike plays" attracted so much attention, is a tall, spare man, slightly bent with years. He wears a long, straggling beard of yellowish gray color and his hair is iron gray.

Is Pat Crowe a will-o'-wisp or a bogey man?
The earth being a big "ball" are all the inhabitants "cake walkers?"
Aguaquito must be somewhat of a cat. He has just come to life again, and after repeatedly being killed.

The aspirants are very busy trying to convince the people that they are just the men for the offices to be filled next November.
The new reappointment bill now before the congress will, of course, increase the electoral vote, but fortunately to no advantage of one section over the other.

W. J. Bryan's paper, The Commoner, is expected to appear this week. The distinguished editor and publisher expresses himself as flattered over the circulation he has already secured and he looks out for the new venture.

Gigantic railroad schemes—consolidations or what not—should rather be encouraged than discouraged by the public. The people should have nothing to ask of such projects but good service and fair rates and anything which will aid the roads in the establishment of each or both should, it seems, be encouraged on selfish grounds.

What is known as Pupin's patent for sea telephony has been bought by the American Telephone and Telegraph company for \$250,000 and an annuity of \$7,500 during the life of the patent. Dr. M. I. Pupin, of Columbia college, is the noted and very successful inventor, and the Electrical Review says of his discovery: "Experimenting with artificial conductors, Dr. Pupin discovered that it was possible to telephone over vast greater lengths of cable than had ever been possible before, and he is able to make any desired length of telephone circuit easily possible. He has shown a design for inductance coils to be introduced at appropriate intervals in a transatlantic cable which would allow telephonic conversation to be held across the Atlantic ocean. It is believed by those who have investigated the subject fully that the improvement which his inventions contemplate will enable telephony over land lines of any length that are in use today and will solve the difficult and attractive problem of ocean telephony."

Congressional contests promise to expose the rascality worked in St. Louis under what is known in Missouri as the Nesbit law—Kentucky's Gobel law by another name. The St. Louis Globe Democrat thus explains the prospects of the exposure mentioned: "Nesbitism is face to face with the courts of the United States. That is a good thing. A cheating election law, though confined to a state or a city, affects the membership of congress and the electoral college itself. The complexion of congress and the election of president might hinge upon the villainy of the Nesbit law ballot box stuffers. Uncle Sam's grip is upon them. They are guilty of every fraud ever contrived to pollute the ballot box. They falsified the registration lists, sent repeaters from precinct to precinct, handed out scratched ballots to voters and distributed money to thugs in the neighborhood of the polls. Eighteen hours were consumed in cooking up what is called a count. They dislike to show the ballots. It is a confession that they dread the revelations certain to follow. But the United States is not a weakling to be fooled or intimidated by the Nesbit law gang."

Victoria Likes Dogs.
Of all kinds of animals there have never been any so favored by Queen Victoria as the dog. Wherever she stays she is surrounded by her pets and her favorites are always moved from place to place with her. She has an adorable aversion to cats. She does not care especially for horses or birds, but devotes herself to her canine friends. At Windsor the kennels contain upward of 100 dogs.

Abram S. Hewitt of New York says that the world is built three times in a century. He says: "It is, of course, not to be expected that the 'sky scrapers' of today will be supplanted by others within the third of a century, but the general advance in the world and the progress of civilization are of such magnitude that, broadly speaking, it is true, as I stated, that we rebuild the world about every thirty-five years."

Shoot at Moving Targets.
Movable targets of a new sort have been invented for the use of the German army. These targets are propelled toward the marksmen at full speed to represent a cavalry charge, being run on rollers, the motive power supplied by horses which are started at a gallop after being attached to the target ropes. The soldiers thus learn to gauge distance and its variations with great accuracy.

CLASS OF A PORTO RICO'S ADVANCEMENT.

The discussion of the territorial stage, but it is not content to remain in this condition permanently. It wants a delegate in the house of representatives. The island has a moderate share of home rule. It has made its start on the road to statehood, but it has a long way to go before it completes the journey. Its immediate aspiration is to secure the same sort of a government which is possessed by Oklahoma, New Mexico and Arizona, and have a representative in the popular branch of congress who can speak though not vote. Its commissioner in Washington does not have this privilege.

It is evident that Porto Rico has a future of which the United States can be proud. The island's commissioner in Washington says that "all that is required to make Porto Rico the most productive country in the world is the introduction of American capital," and he declares that the investment will take place just as soon as the island gets a full territorial form of government. There are two parties in the island, the Republican and the Federalists, the former of which want a territorial government of the advanced class at the earliest practicable moment, and the latter of which would stop just short of representation in congress, and preserve the conditions already existing. The Republican party of the island, it is certain, is the one which has the future on its side.

Porto Rico is a little larger than Connecticut, and has a population a little short of that state. It is one of the richest in resources of the islands of the Gulf of Mexico. Of course, most of its inhabitants, outside of the native and largest element, are Spaniards. In the past year, however, there has been a considerable immigration of Americans and Europeans other than Spaniards into the island, and this movement is likely to increase. Although the island is more thickly settled than any of the other pieces of territory in the Caribbean or Gulf of Mexico, its resources have never yet been developed in any intelligent way. Undoubtedly there is a chance for great industrial and commercial expansion in Porto Rico, and the chances are that this will lead to that locality's political advancement at an early day.

DEFINITION OF HOME.

A beautiful definition of home was given by Lady Aberdeen in the address delivered by her before the recent meeting at Toronto of the national council of women. "What is that indefinable something that makes a home; that reveals itself in the books and pictures, in the arrangement of the rooms, in the preparation for a guest, in the tones of the children, in the expression of husband and wife. We cannot describe it, but we recognize it at once when it is present, and no house can be truly a home without some measure of it. We do not need just houses where we can eat heartily and sleep well, but we want homes, full of rest and peace and beauty and refreshment."

A BIG EMBROIDERY SALE.

It is a new stock of embroideries made and bought for special February selling.
It is by far the largest assortment we ever offered before and many of our customers know that we have had some great lots in former February's.
These new Hamburg embroideries are fresh from Switzerland, the country in which it is possible to make the best and cheapest embroideries in the world.
We selected the patterns and designs of these embroideries months ago to be made and shipped to us for February selling. After taking the pains we did in the purchase of these embroideries we ought therefore to be able to sell you better embroideries for the same price or the same embroideries for lower prices than others.

—Yesterday was balmy and very pleasant. Today has been even milder. It would seem spring is here, as such harbingers as butterflies were visible today.

ALL A CANARD.

REPORT THAT A NEGRO HAD BEEN HUNG WAS FALSE.

Corner Phelps Was Sent Down But No Body Was Found.

Something of a sensation was created early this morning by the report that the dead body of a negro had been found hanging from the limb of a tree near the mouth of Perkins' creek, four or five miles below the city.

The man who gave the information lived at Metropolis and in coming up in a skiff yesterday afternoon discovered the gruesome remains. He made inquiry in the neighborhood, so he claimed, and ascertained that the body had been there since Friday.

When he reached the city he made known the discovery to Mr. Frank Wagner, who in turn notified Chief Henry Bailey, and the latter left Marshal Collins a note stating what had been reported to him.

Coroner Phelps was notified early in the morning and sent two men in a skiff after the body.

Joe Wallace and assistant, who went down after the remains, returned at 2:30 o'clock this afternoon, and reported that they could find nothing, although they had searched for two miles around the mouth of the creek.

They could not find any one who had heard anything of the supposed corpse, hence it is evident that the report was without foundation and the Metropolis man who started it must have had bats in his belfry.

The report was current all the morning that the remains were those of George Smith, the negro who so brutally assaulted Viola Green January 4. One theory was that he committed suicide and another that he had been caught and quietly lynched by indignant colored people.

Y. M. C. A. NOTES.

PROF. SMITH AND GENERAL SECRETARY ESCOTT RETURN FROM BENTON.

The young men's Sunday service held in Benton yesterday were very gratifying to all.

Prof. H. Clay Smith spoke to a very large and enthusiastic audience in the Methodist church at 10:30.

W. G. Escott spoke to 125 men in the court room of the court house at 2:30. Mr. Escott held a service for the children in the Christian church at 2 o'clock with an attendance of 75.

At the union service in the Baptist church at 6 o'clock at night there was a large attendance. Prof. Smith spoke on the work that is being done by the Young Men's Christian association in the colleges, the army and navy.

W. G. Escott very briefly spoke on the city and railroad work of the Young Men's Christian association; also the Indian work, among miners and men in lumber camps and the foreign work, closing with a presentation of the work being done by the state committee of Kentucky both in city and county.

There were a number of men, about 40, expressed a desire to lead lives of deeper consecration. Two young men expressed a determination to turn from sin to God.

Mr. Floyd Harris was expected to go, but as he was sick did not attend.

The work of the Young Men's Christian association is getting organized so that the meeting at home need not be interfered with if the secretary and the chairman of the religious department is out of town.

Rev. I. H. Teel conducted the boys' meeting at 2:30 and Professor Hatfield gave an excellent talk to men.

The intention is to hold the Sundays meetings often in the surrounding towns this year and let the work go on at home.

STRENGTH IN WOMAN IS ADMIRABLE.

"Strength in woman is admirable by a strong man always," writes Helen Waterson Moody in the December Ladies' Home Journal. "Of course, I mean by the phrase a 'strong man' a man who has some experience of life. It occasionally happens that a very young man of rare strength of character falls the victim in early life to the fascinations of a clinging, sweet, inefficient creature, as David Copperfield did to his Dora. But the fonder and the stronger and the wiser a man is, the more he is sure to admire the deep strength of character in woman that springs from the large and easy ability to do things well."

HIS OVERCOAT STOLEN.

Mr. John S. Meltzer, of Dukedom, Graves county, came in this morning on the 4 o'clock train and concluded to sleep in the waiting room at the union depot until daylight. When he awoke his overcoat was gone, and Officer Orr can find no trace of it.

PRODUCTS OF REFLECTION.

The man who patronizes saloons often finds himself in a tight place. One-half of the world may not know how the other half lives—but it has suspicions.

Twenty-four grains make one pennyweight—but one dram makes fifteen pennies go.

Don't imagine a man belongs to the vegetable kingdom because he is a venerable sage.

Any wor a can mother a dog or she can mother a baby, but no woman can mother both.

It would never do to abolish marriages, because without them there wouldn't be any divorces.

If it were a question of going with-out jewels or clothes some women would get awfully unburned.

If there is anything in the habit, why don't girls look under the bed? mock like they do under the bed?

Don't wait for great opportunities. A long, continuous walk will get you over more ground than a short run.

If at the age of 40 a man meets a woman he thought he loved at 20 he is apt to believe that luck was with him after all.

A woman never can tell whether she hates more to be snubbed around her neck in summer or chapped around her stockings in winter.

An old bachelor says the only difference between a wedding and a hanging is that, with the former a man's troubles begin and with the latter they end.

MILIONS IN IT.

NEW JERSEY HARVEST AS HOME OF TRUSTS AND CORPORATIONS.

New York, Jan. 14.—In the annual report of the state board of assessors, which has just been submitted to the New Jersey legislature, it is stated that 6,065 corporations organized under the laws of the state of New Jersey have paid into the treasury during the last year the sum of \$2,051,209.

As the corporation tax rate in this state is one-tenth of one per cent. on the paid in capital stock, or \$1 tax for every \$1,000 capital paid in, the 6,065 corporations must have paid tax upon \$2,051,209,000 paid in capital stock.

The state corporation department estimates that the 6,065 corporations assessed have paid in capital stock if 20 per cent. of the authorized capital stock. If the tax of \$2,051,209, which represents \$2,051,209,000 paid in capital stock, is 20 per cent. of the authorized capital stock, the authorized capital stock must be five times \$2,051,209,000, or the sum of \$10,256,047,000. The increase in the number of miscellaneous corporations assessed during the year over that of 1899, is 1,136, although in reality 1,807 new companies were added to the list in 1900.

The difference of 671 companies represents those whose charters were forfeited by the proclamation of Gov. Voorhees in May last for nonpayment of taxes.
